SUMMARY

Front-end developer with 6 years of web development experience across healthcare, education, e-commerce and digital agencies. Throughout my career I have worked with a wide range of products and technologies, from front-end to back-end with Node.js and software quality, always focused on user experience, automated testing and agile teamwork. I spent 2025 in Ireland studying English and now combine freelance work with generative AI studies.

SKILLS

Front-end	React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Styled Components, Angular
State and forms	Redux, Context API, Zustand, React Hook Form, Zod
Testing	Jest, React Testing Library, Cypress, manual testing
Back-end	Node.js, Express, MongoDB, Mongoose, MySQL, REST APIs
Platforms	WordPress, Magento
Practices	Git, Scrum, Kanban, Design Systems, SEO
